Amount sought

We are happy to get a percentage of the money raised. We use every d=ingle dollar towards our mission and goals.

What is the purpose of your charity?

Autismo en mi Vida RGV is a local bilingual 501c3 nonprofit organization that promotes inclusion, autism awareness and acceptance, as well as parent training and education. Parent training and education is huge in our organization, and we work hard to provide those opportunities to our parents by offering free and bilingual training because we believe that language should not be a barrier to help parents prepare with information they need to be an active participant in the decision making of their child's future.

If selected, how will the organization utilize these funds?

Charities Contact Form : Entry # 124

Our organization has been around for over 8 years but has been a 501c3 for only 1 year, we need the funds to be able to afford interpretation and meeting tools like ZOOM membership with interpretation tool included, informational pamphlets for the community to learn about autism and to be able to find our support group, training materials needed for the meetings, we want to be able to afford out of town speakers that are experts in certain areas and important topics of interest that we can't find locally, but most importantly we would like to sponsor families to attend conferences that can get pricey and our families can't afford due to multiple expenses invested in their child's therapies and treatments that are often not covered through insurance. Empowering parents through information and education, giving them tools, truly change lives! We want to change lives and we need the support of our community to do so, as we have very limited Autism resources in this area.

Will the organization provide volunteers to help with the setup and/or operation of the event?

Absolutely! We have an amazing group of parents that will show up for these events and help us out.

How many volunteers will be available?

With our last event, we had about 20 volunteers helping us out. If you tell us how many people you need, we can work on getting a team together with our families and also asking for support in the community.

Why should we support your charity?

That saying "it takes a village to raise a child" becomes EXTRA TRUE in our special needs community. We have been building community and partnering up with amazing organizations that have helped us reach some of our goals. We work very hard to help other families, and we think that the work we have been doing speaks for itself. Please visit our Facebook page, which is very active with all of our events and trainings that we have provided and attended. We are still small financially, but we serve over 1,700 RGV families. Unfortunately, Autism prevalence has been increasing by the year and is now at 1 in every 36 children being diagnosed with Autism. Our children will be adults and we need our community to be more empathetic and educated on this condition and accept our children for who they are. All of that takes a lot of work and we can't do this alone. We appreciate your consideration. Our facebook page is: <https://www.facebook.com/AutismoBrownsville>

I was trying to upload the EIN tax forms but for some reason is not showing me that is picking up the attachment, Please let me know if there is an email where I can submit the proper documentation. I apologize for any inconvenience caused by this.
