- [IRS-EIN-CK-New.pdf](#)

Organization W-9

- [W92023.pdf](#)

Amount sought

\$5,000-\$10,000

What is the purpose of your charity?

We provide adaptive sports, social activities, and other quality-of-life programs for children and young adults with disabilities. We also advocate for inclusive programming and facilities so that every community member can utilize them, regardless of abilities. We also offer free Spanish and English CPR classes to low-income and at-risk families. We also offer free training to other nonprofits, staff, and volunteers to help.

If selected, how will the organization utilize these funds?

Charities Contact Form : Entry # 123

We will expand current services to additional low-income areas to allow easier access for more children unable to make it to current programming locations due to logistical issues. We also plan to add additional CPR classes to meet the overwhelming demand.

Will the organization provide volunteers to help with the setup and/or operation of the event?

Yes, we can request staff and volunteers to assist as needed!

How many volunteers will be available?

We can get ten volunteers.

Why should we support your charity?

We are non-disability specific, providing support and assistance to any child- regardless of the type of disability. We provide services in all four counties in the RGV, and by the end of 2023, we expect to have served 5000 children and families. In addition, as part of our impact program, we also provide free CPR training throughout the RGV to families and other nonprofit staff and volunteers to help make all communities stronger and more resilient. All funds stay locally to support RGV children and families.
